Freelance Developer   *09/2019 -- Date*

My Networks, Remote

- Successfully completed a CMS blog website with Laravel, bootstrap4 and css3. Also integrated a mailing feature in this project.
- Built a php/Laravel powered ecommerce site using a third party Laravel package for shopping cart.
- Laid and built the frontend layout for a CRUD (Create, Read, Update, Delete) Laravel powered app.
- Further developed three-page website (login, dashboard and table page display) following a UI/UX design. Implemented the frontend layout of the whole design and made it mobile, tablet, desktop responsive.
- Built a landing page for a crypto landing page for a client using Boostrap4, and jQuery.
- Built a WordPress site for a barbing salon platform
- Developed a tip calculator using JavaScript that sums the tip and price in naira and displays them on a click.
- personal portfolio website with boostrap4 and jQuery.

Backend Intern   *09/2019 -- 11/2019*
Hotels.ng, Remote

- Wrote server-side and client-side code for my team's project (docufix.com.ng) using PHP, HTML, CSS, JavaScript, and BS4 specifically.
- Collaborated remotely with intern UI/UX designers to create sleek and innovative UI design.
- Implemented third party package for mailing services for newsletter feature
- Was certified after the programme.

Intern Google's Re-skilling Africa Program   *09/2018 -- 2/2019*
Pluralsight & google, Remote

- Certified proficient in JavaScript by pluralsight IQ
- Built a JavaScript game (black jack). A black jack game following tutorials from the programme.
